Value

WHEN IT COMES TO TEACHING MATERIALS, WE UNDERSTAND HOW IMPORTANT IT IS FOR YOUR SCHOOL TEAM TO HAVE SOURCES EVERYONE CAN TRUST TO BE EDUCATIONALLY ENRICHING, AGE-APPROPRIATE AND ADAPTABLE TO VARYING ABILITIES. WITH A VAST SEA OF OPTIONS, FINDING THE RIGHT ONES IS TIME CONSUMING AND PURCHASING THEM INDIVIDUALLY CAN GET COSTLY.

As a member of Focused ED, your school will benefit from the deep and up-to-the minute knowledge of our dedicated procurement and education services experts, who specialize in curating K-12 resources. We offer an array of options, all at unparalleled rates or available free with your membership.

“We’re committed to helping our members make the most of our offerings, so we create wrap-around services to do that. For example, we don’t just curate an amazing Digital Classroom, we create webinars to help people use it, we make the links to curriculum clear and we showcase it in action at our conference.”

MAUREEN CIARNIELLO, DIRECTOR OF EDUCATION SERVICES

DIGITAL CLASSROOM

Our Digital Classroom provides exceptional value as an evaluated, curated and copyright-compliant collection of leading educational tools that will enable your educators to provide an enriched learning experience for students.

These digital tools are grouped by grade level, subject and topic. Many are suitable for student-led discovery, perfect for inquiry-based learning and equally accessible from school or home. There are also resources adaptable to different learning levels, such as World Book, which provides some of the same information for Kids, Student and Advanced learners.

Digital Classroom also includes text-to-speech offerings to support varying student needs or learning styles. In addition to the core collection, your school can select à la carte offerings to best suit the needs of your students.

K-12 EVALUATED RESOURCE COLLECTION

Included as part of your membership, our K-12 Evaluated Resource Collection provides educators’ assessments of more than 3,300 books, videos, websites and other tools that support BC’s curriculum. Each listing provides an overview of topic, content, and grade level to help your educators choose the right materials to supplement their lessons. Many of the evaluated digital resources are free to access and can be used in class or adapt perfectly to online learning.
